WHO WE ARE

Established in 1992, TDM is a leading company in the Latin American market in engineering solutions, supply and installation of construction products for the most important infrastructure and mining projects.

- **Our mission** is to provide innovative and quality comprehensive engineering solutions with highly qualified human resources and within a framework of social responsibility, fostering long-term profitable relationships with our stakeholders and cultivating the synergies of the Group.
- **Our vision** is to be recognized in Latin America as the most reliable and innovative company in providing comprehensive engineering solutions, reaching our growth targets..

TDM GROUP SOLUTIONS

Engineering

We have a staff of more than 120 engineers specialized in design and specification of our products, identifying the characteristics of each project, optimizing the technical needs of our customers. Our scope covers the sectors of infrastructure, mining, energy and hydrocarbons, sanitation and agriculture.

Products

We manufacture and market engineering products for the construction of large projects. Our products are recognized worldwide for their technical characteristics in accordance with international standards. We are constantly seeking new solutions and applications to contribute to the success of our clients' projects.

Services

To ensure the performance of all products, the installation and assembly service is carried out with our professionals where required. We have specialized staff and equipment to work throughout Latin America with the highest safety standards and occupational accidents prevention.

ENGINEERING SOLUTIONS

Waterproofing

Asphalts and Paving

Fluid transport system and drainage

Stability and containment

Erosion control

Road safety

WATERPROOFING

- Leaching pads
- Dams and tailings pits
- Mine closures
- Sanitary and safety landfills
- Water reservoirs
- Ditch lining
- Tunnel waterproofing
- Oxidation ponds
- Ornamental ponds and pools
- Roof waterproofing
- Geosynthetics installation

WATERPROOFING

▶ *Leaching pads*

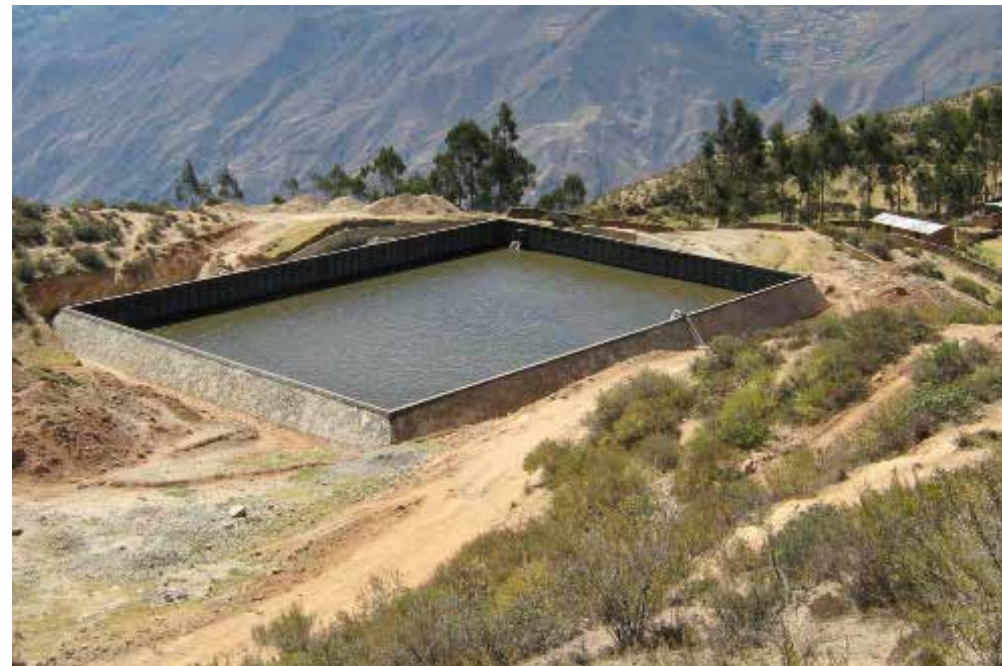

▶ *Dams and tailings pits*

▶ *Mine closures*

▶ *Sanitary and safety landfills*

▶ *Water reservoirs*

WATERPROOFING

► Liquid waterproofing

► Liquid waterproofing - Mantos Copper, Chile

ASPHALTS AND PAVING

- Road stabilization and reinforcement
- Polymer - modified asphalts
- Emulsions for priming
- Surface treatments:
 - Slurry Seal
 - Microsurfacing
 - Chipseal

ASPHALTS AND PAVING

► Road stabilization and reinforcement

► Polymer - modified asphalts

► Emulsions for priming

► Slurry Seal

► Microsurfacing

FLUID TRANSPORT SYSTEM AND DRAINAGE

- Pressurized fluid transport system
- Gravity fluid transport system
- Sanitary sewage
- Canalizations
- Drainage of roads, airports and sports fields

FLUID TRANSPORT SYSTEM AND DRAINAGE

► *Pressurized fluid transport system*

► *Gravity fluid transport system*

► *Sanitary sewage*

► *Canalizations*

► *Drainage of sport fields*

STABILITY AND CONTAINMENT

- Rockfall protection and natural hazards protection
- Mechanically stabilized earth walls
- Earth reinforcement walls
- Slope stabilization
